Objective 1: Each year of the state plan, the Council will share resources and information through multiple media formats and specifically target 6 new groups or locations (such as clinics, schools, nursing students, etc.).

Key Activities:

1. Support South Dakota's involvement in the National Community of Practice on Supporting Families.
2. Support the development of varied media for general awareness on disability topics and specific information for selected groups.
3. Support participation of parents and self-advocates in workgroups and conferences related to community services, including development of resources, policy changes, communities of practice, etc.
4. Updating of website for statewide disability information and resources.
5. Booths/displays at conferences to share information and resources.

Expected Outputs: enter each expected output separately.

1. 20 family members and 4 adults with IDD participate in the State Community of Practice for Supporting Families.
2. 26 social media posts, newsletters, articles, PSAs were developed and shared weekly on disability awareness topics and resources.
3. 20 self-advocates with IDD and 40 family members/guardians will receive assistance to attend workshops and conferences.
4. Website as a hub for disability information and resources is continuously updated and shows increased use.

5. Sharing of information and resources at 2 non-disability conferences and 1 disability conference with outreach to 100 people.

Expected Objective Outcomes:

1. People with IDD and their families are more knowledgeable about Charting the LifeCourse Framework through the National Community of Practice on Support Families.
2. A wide variety of people see and interact with social media posts, newsletters, articles and PSAs that increase their awareness of disabilities and disability issues.
3. The website/disability hub makes it easier for people with disabilities and families to locate information they need.
4. A variety of people, providers and communities learn about resources and have opportunities to ask questions about the Council and its activities.

Data Evaluation and Measurement: enter each data and evaluation measurement separately.

1. Sign in sheets for trainings events
2. Evaluation of trainings and activities (may include satisfaction with the activity)
3. Comments and responses to media posts and PSAs
4. Grantee reports and annual grantee surveys
5. Review of website usage and feedback
6. Staff reports on conference attendance and comments.

Objective 3: Each year of the state plan, the Council will collaborate to improve policies and practices at a minimum of 3 agencies providing services to transition age youth.

Key Activities:

1. Support a Transition Summit to share recommendations and further collaboration related to transition from school to adult settings (post-secondary, work, etc.).
2. Support participation of parents and self-advocates in trainings, surveys, and development of resources for transition age youth and their families.

Expected Outputs:

1. 3 schools will improve transition services for youth with IDD.
2. 5 parents and self-advocates will participate in the development and review of new resources for transition age youth.

Expected Objective Outcomes:

1. Schools improve transition services for youth with IDD and share their knowledge with other school districts.
2. Resources are guided by what parents and self-advocates need and in a format that works for them.

Data Evaluation and Measurement:

1. Evaluation of grant activities (including satisfaction) by participating schools, parents and self-advocates.
2. Feedback from parents and self-advocates involved in developing and reviewing resources.
3. Grantee reports and annual grantee surveys.

Objective 4: Each year of the state plan, the Council will support activities related to emerging issues in community services and supports for people with I/DD. (Examples: ongoing pandemic concerns, vaccine hesitancy, voting rights, sub-minimum wages, etc.)

Key Activities:

1. Council member and staff participation in workgroups such as the Employment First Alliance Workgroup, Brain Injury Workgroup and Early Learner South Dakota (ELSD) and ELSD Public Policy Committee will provide opportunities to identify emerging issues for future implementation.
2. Collaboration with DD Network partners and others on emerging issues.

Expected Outputs:

1. Council members and staff participate in at least 3 workgroups or committees related to community-based services and supports.
2. A minimum of 1 activity will be supported for an emerging issue.

Expected Objective Outcomes: each expected objective outcome separately.

1. Council members and staff share emerging issues and knowledge gained from the committees with the full Council and others.
2. Community-based services and supports are improved based on activities completed.

Data Evaluation and Measurement: enter each data and evaluation measurement separately.

1. Minutes of Council meetings where information is shared on workgroup and committee activities.
2. Reports from activities and annual grantee surveys.

Goal 2 – Mental Health

Description: People with intellectual and developmental disabilities have improved access to individually designed mental health services in their own communities.

Area of Emphasis:

For each goal, check all the area(s) of emphasis that relate to the goal statement.

- ☐ Quality Assurance
- ☐ Education and Early Intervention
- ☐ Child Care
- ☒ Health
- ☐ Housing
- ☐ Transportation
- ☐ Recreation
- ☒ Formal and Informal Community Supports

Activities to be used in achieving each goal:

Objective 1: In FFY2022 and in FFY2026, the Council will collaborate to complete an assessment of the capacity of the current system to support people with IDD and mental health concerns in their communities.

Key Activities

1. The assessment report will be completed and shared statewide.
2. At least one recommendation from the report will be selected and activities developed to impact the recommendation.

Expected Outputs:

1. The assessment report will be finalized and available on multiple websites.
2. 30 professionals from both the developmental disabilities and mental health systems will participate in selected activities.

Expected Objective Outcomes:

1. Policymakers and professionals within the developmental disabilities and mental health systems will be more aware of the needs of people with intellectual and developmental disabilities who have mental health challenges.
2. Professionals from both the developmental disabilities and mental health systems will be more knowledgeable about the issues and recommendations from the assessment.

Data Evaluation and Measurement:

1. Evaluations of meetings where recommendations are shared.
2. Evaluations from trainings or events held.
3. Grantee reports.

Key Activities

1. Collaborate with others to support two education and awareness activities.

Expected Outputs:

1. Events or activities will take place in 2 communities or locations.
2. Activities will involve 20 people with IDD, 20 family members or guardians, and 50 service providers and community members.

Expected Objective Outcomes:

1. Community members, people with IDD, family members, guardians and service providers have a greater awareness of the needs of people with IDD who also have mental health concerns.
2. Two communities learn more about people with IDD and mental health challenges.

Data Evaluation and Measurement:

1. If available, sign-in sheets or registration information
2. Feedback received from participants at specific events or activities.
3. Possible follow-up surveys or events to learn more from the communities involved.
4. Grantee reports and annual grantee surveys.

Objective 3: Each year of the state plan, the Council will support 1 event or resource that provides education for family caregivers and direct support providers on maintaining their own well-being.

Key Activities

1. Support education and resources for family caregivers and direct support providers on the importance of maintaining their own well-being.
2. Share best practices to support people with IDD and mental health concerns (possible focus on parents whose children have behavioral concerns that impact childcare, early learning and education and/or family members caring for adults with IDD/MH).

Expected Outputs:

1. One event or resource will be developed and/or shared with 100 family caregivers and direct support professionals.

Expected Objective Outcomes:

1. Family caregivers and direct support professionals learn useful tools and resources to help them to maintain their own well-being while supporting people with IDD and mental health concerns.

Objective 1: Each year of the state plan, in collaboration with the DD Network and others, advocacy and leadership training will continue for 35 youth and adults with IDD and their 35 family members or guardians.

Key Activities

1. Support Partners in Policymaking training and Partners Continuing Education.
2. Support advocacy and leadership training for Native Americans with disabilities and their families.
3. Promote opportunities for families and people with IDD from rural and culturally diverse backgrounds to participate in cross-disability boards and coalitions.

Expected Outputs:

1. Partners in Policymaking training is supported to train 20 people with IDD, family members and guardians.
2. 30 Native Americans with disabilities and their families receive advocacy and leadership training.
3. At least 5 opportunities for expanded leadership are shared with training participants.

Expected Objective Outcomes:

1. More people with IDD, their families and guardians understand the process of advocating and learn skills to be better advocates, including those from rural areas and culturally diverse backgrounds.
2. Youth with IDD have an opportunity to learn self-advocacy skills with peers who have disabilities.

Data Evaluation and Measurement:

1. Sign-in sheets or registration lists with participant information.
2. Evaluations of trainings and activities (to include satisfaction with the activity)
3. Grantee reports and annual grantee surveys.
